Notification to Physician and Practitioners Regarding Medicare Reimbursement

Medicare will pay only for tests that meet the Medicare coverage criteria and are reasonable and necessary to treat or diagnose an individual patient. Medicare does not pay for tests for which documentation, including the patient record, does not support that the tests were reasonable and necessary. Medicare generally does not cover routine screening tests even if the physician or other authorized test orderer considers the tests appropriate for the patient.

PLEASE PRINT PHYSICIAN'S NAME IF NOT LISTED BELOW
